OMSCHRIJVING

K-Stream is a high-performance interspeaker cable to complement KEF's wireless HiFi speakers such as LS50 Wireless II and LS60 Wireless. Created by Chord Company for KEF, its award-winning high-performance cable technology ensures the high-resolution data transfer between the primary and secondary speakers. K-Stream is now upgraded to 8 metres long, 2 metres above the previous version to provide greater flexibility when it comes to speaker placement.
